

COVID AND THE WAY WE WORK AND DRIVE

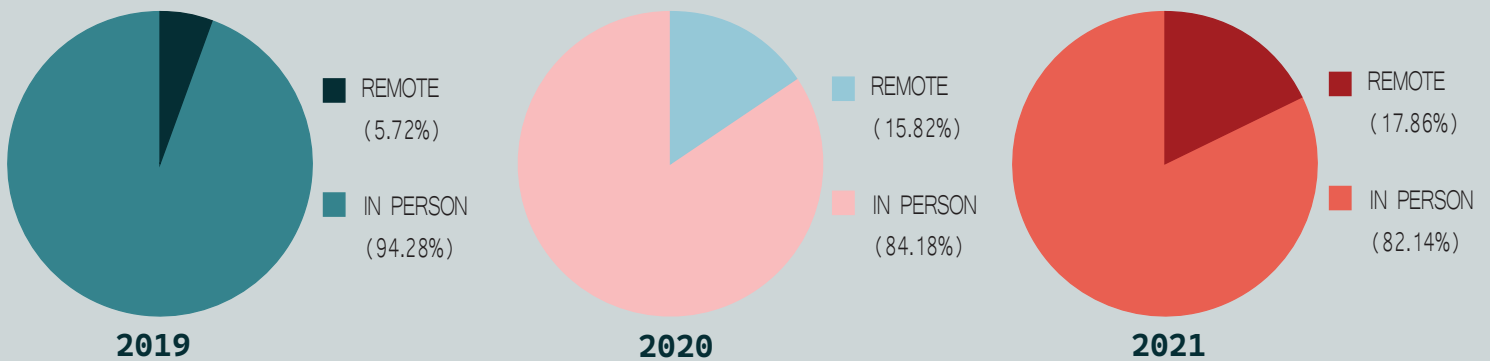

From 2019 to 2021, we saw a massive shift in where we work and how we travel. The intention was to slow the spread of the pandemic. But did it work? The map to the right explores covid cases per 10,000 people and the percent decrease in overall vehicle miles driven*.

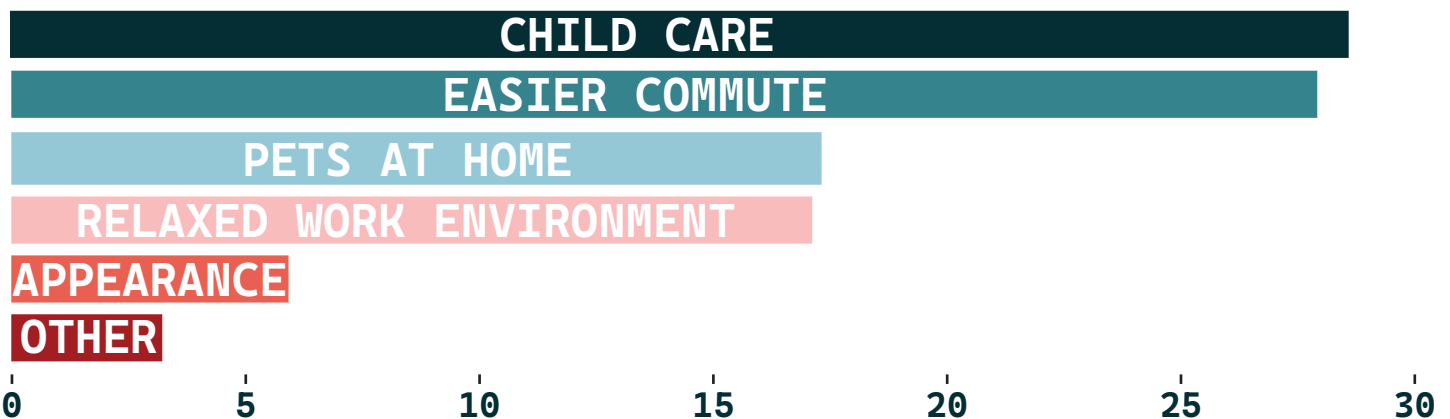

COVID CASES PER 10K VEHICLE MILES DRIVEN PERCENT CHANGE

How much are we working from home?*

*Data obtained from Department of Transportation Bureau of Statistics

Why are we keeping our work at home?*

*Percentage of survey respondents (1000). Conducted by Pollfist
